## EXPERIENCE

**Wellcare,** Tampa, FL                                                July 2018 – January 2021
*Actuarial Analyst Sr., Medicare Team*
- Collaborated with Market, Accounting, Actuarial, Medical Economics and other departments to gather and analyze the financial data required to produce the required regulatory reports;
- Analyzed and developed various actuarial data reports by identifying trends and gaps, and communicated recommended course of action;
- Developed processes and procedures for gathering, categorizing, and allocating claim and financial data. Relevant tools included but were not limited to data warehouse tables, Medical Economics data, Actuarial data, Access Databases, SQL, SAS, and Excel;
- Prepared and evaluated portions of the Medicare Advantage bid submissions. Responded to external reviewers of bid submissions;
- Developed and modified actuarial models to streamline analysis of Medicare business strategies;
- Applied background in mathematics, probability, statistics, principles of finance and business to calculate financial outcomes.
- Create ad hoc reports as requested

**Wellcare,** Tampa, FL                                                August 2016 – July 2018
*Actuarial Analyst, Reserve Team*
- Prepared monthly calculation of the Corporation's IBNR reserves;
- Calculated profitability reports on appropriate business segments;
- Performed monthly analysis identifying opportunities to reduce cost and utilization;
- Developed actionable recommendations to management based on findings.

**Assurant Special Property August**, Miami, FL                        August 2015 – August 2016
*Claims Adjuster*
- Conducted claim investigations by recording claimant statements and securing public records;
- Examined claimant-provided documentation for potential coverage deficiencies;
- Analyzed claimant-provided documentation to build an estimate and finalize a coverage decision.

**Florida Power & Light**, Miami, FL                                   August 2014 – August 2015
